Announcement: ISO 9001:2000 and EN/AS9120:2002 Certification

July 16, 2009 marked the day for NTK Aviation America's initial certification for the quality management system AS9120:2002. Obtaining this certification shows our commitment to quality and continual improvement. By following this quality management system we will adhere to a global standard of excellence and continue to provide diligent service. This certification will contribute to NTK Aviation America's success as an industry leader, creating a standard of excellence as well as show the dedication that we have to our customers.

NTK Aviation America, Inc.
